Guided Trails

We can provide an expert guide to lead a group visit along the Geo-Trail to introduce visitors to this fascinating site. Along the trail you will discover 320 million year old fossils, an ancient reef, quarries, the Millennium Wall, lime kilns and lead mines. Become immersed in the history, geology and industrial past of the Wirksworth area. The visit can also include a walk along the High Peak Trail, which crosses our site, to include the gritstone outcrop at Black Rocks from which there are commanding views over Cromford.

The current trail is unsuitable for wheelchair and mobility scooter users, however, the NSC has plans to bring the trail up to a suitable standard for all visitors during 2022.

For educational tours for adults or senior students there is a charge of **£250 for a half day and £500 for a full day per guide**. A guide can take up to 20 people, with a minimum group size of 10.

For groups not requiring a guide there is a charge of £20, which goes towards the maintenance of the site – please contact us for further information.
